

April 22, 2009

To All Those Concerned,

The purpose of this email is to inform you that there is a change in the fee structure for projects within Licking County and outside the City of Newark. As you may be aware, earlier this year there was a substantial increase in the fee structure. The earlier increase was an estimate of the fees necessary to balance the budget within the Building Code Department. That estimate was based on projections of construction activity for 2009.

With the first quarter of this year behind us, and construction activity exceeding our earlier expectations, we have re-evaluated our estimates and have substantially reduced the fee structure.

Attached, please find the reduced fee structure for projects within Licking County and outside the City of Newark. This reduced fee structure is effective immediately. If you should have any questions, please feel free to contact our office at (740) 670-7900.

Respectfully,

Jack W. Pryor

2009
